SPECIAL NOTICE

The Albany County Health Department recommends extra care in the handling of off-label vaccinated animals. As a result of this recommendation, rabbits will be housed in such a manner as to reduce contact with the public. Exhibitors of rabbits will be expected to cooperate fully with this recommendation.

Hand washing is the single most important prevention step for reducing disease transmission. It is recommended that all fairgoers wash their hands with soap and water after going to the toilet, after touching any animal, before eating and before preparing foods. Hand washing stations are located outside of every animal barn and outside the petting zoo for your convenience.

SPECIAL NOTICE TO GOAT EXHIBITORS

The Albany County Health Department recommends goat vaccinations be completed 28 days prior to arrival on the fairgrounds.
